# How To Escape Your Prison

## A Moral Reconciliation Therapy—MRT® Program

*How to Escape Your Prison* is the primary MRT workbook used for adult offenders and adults in substance abuse treatment. The 152-page workbook is also used in programs for multiple DUI offenders. The workbook addresses issues related to criminal thinking and criminal needs, as well as Substance Abuse.

The book is used with all types of offenders including those in jails, prisons, community corrections, therapeutic communities, halfway houses, parole and probation, and drug/mental health/DUI courts. Numerous substance abuse programs, both residential and outpatient, utilize the workbook. MRT is a SAMHSA NREPP program used for substance abuse and general treatment of criminal populations.

This program consists of 16 steps, with 12 of these typically completed in an average of 30 sessions held in accordance with the implementation

site's own needs and characteristics. For example, TC's often hold several MRT groups each week, while drug courts and probation sites typically hold a weekly group. Clients complete homework for each group prior to coming to a session. In the group each client presents their homework and the facilitator passes the client to the next step or has the client redo the homework, based on objective criteria. All MRT groups are open-ended, meaning that new clients can enter an ongoing group at any time. Each group session will usually have new clients, as well as clients graduating from the program. All MRT facilitators must complete the Basic MRT Training. See the following page for supporting materials.

Clients are required to complete exercises that will challenge them to consider true career possibilities and what it will take to make the possibility a reality. This program also contains chapters dealing with the importance of education, finances, and goal-setting. This workbook can be employed with individuals who are about to enter the workforce—or with those who have already been employed and are looking for their next job—or a career. The homework contained in each chapter is shared in a group process that can be easily incorporated into any type of setting. Groups can be conducted in an open-ended format, where clients can work on completing sessions at their own pace; or in an education format, where all members of the group complete sessions at the same time.
